

COMPANY PROFILE AND SERVICES PROVIDED

MQ PICTURES Ltd. is a small filmmaking company established by three professionals. Their combined efforts has given life to three awarded and well distributed feature films, 2 feature length documentaries, commercials, theater project, a BAFTA nominated short and three co-productions. It is run together with a circle of allies from the different film departments - our usual collaborator.

We strongly believe in long term relationships and we are proud that the people we have work with are eager to get involved in every new projects we initiate or service. Be it a Bulgarian film or series, a European coproduction, a commercial or pro bono cause. Zornitsa Sophia is the Manager of the Company, an active filmmaker and producer since 2002, a member of Bulgarian Film Directors Associations, Union of Bulgarian Filmmakers since 2005 and European Film Academy since 2011, she served as Jury in film festivals such as Valencia IFF, Warsaw IFF and Pilzen FF.

As a service company for international films we can provide you with a strunning portfolio of location in Bulgaria – from glorious mountain scapes, ancient tombs or sacret places, to city scapes from different periods – classic, communist and modern; we can gather you a team of collaborators to not only service, but advance your artistic vision and while fitting into the producer’s vision. Being a small company we stand for every project we service as our own, not putting it on the line. For this reason we take only limited projects to nurture them as our own.
